

Patrons of Bank At Pamplin Meet

Bank Closed Friday; May Re-
Open Soon; Depositors
Sign Agreement

A mass meeting of the patrons of the State Bank of Pamplin, which closed its doors last Friday, was held Saturday afternoon at the High School auditorium to determine whether the bank could be reopened shortly. The bank's doors were closed pending a meeting of this nature.

At the close of the afternoon session a demonstration of loyalty and confidence was given by depositors by a written agreement signifying their intention to allow funds to remain on deposit for a period of at least one year, thus making it possible for the bank to reopen for business at an early date.

Directors of the bank met Monday and Tuesday nights but no further announcements have been made. J. V. Lewis, attorney, presided over the Saturday mass meeting and addresses were made by W. R. Brightwell, cashier; L. N. Lig, vice-president; R. F. Burk and Bennett Taylor, directors. Problems confronting the bank in this time were discussed.

National Officers Adopt Road Aim

Washington, D. C., Jan. 1.—The importance which highway construction has assumed as one of the nation's greatest needs for a better understanding on the part of the public, as to the official channels through which road building is advanced. This is the view taken by Henry Wood, chairman of the State Highway Commission of Utah and president of the American Association of State Highway Officials. Mr. Wood is now in Washington at the request of Colonel Arthur Wood, chairman of President Hoover's Emergency Committee for Road Employment, to aid in coordinating forces for more employment.

"We have recently concluded our regular session at Pittsburgh," said Mr. Wood, "and we have agreed upon policies by which we are to be governed during the coming year. First, we have a program for increased Federal aid as an emergency measure and we are working intensively with President Hoover's committee headed by Colonel Arthur Wood."

"Another part of our program is to have changed, if possible, the present limitation of \$15,000 per mile on Federal participation in highway construction so that the Secretary of Agriculture may be authorized to approve projects at 50 per cent of the cost of construction."

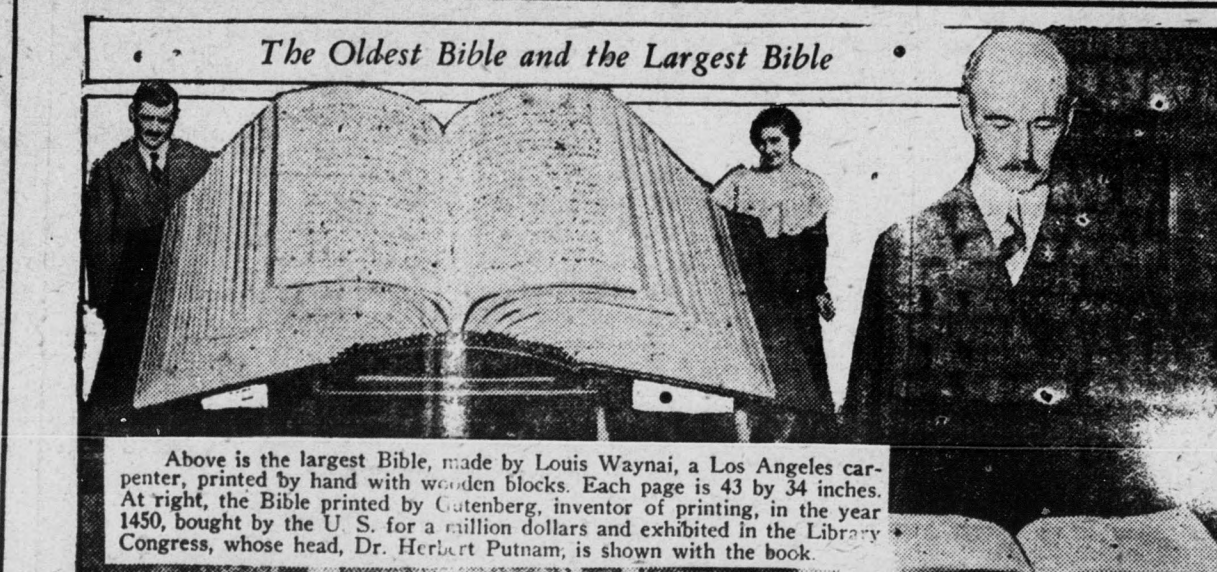

"Then there is at the present time considerable agitation for the improvement of secondary roads, in some cases classed as farm-to-market roads, with a resultant demand for diversion of state funds now available for state systems. We are opposed to the diversion of these funds until the primary routes have reached a more advanced stage of improvement. Our position is that the major portion of state funds should be used entirely to expedite work on state systems, and in keeping with major traffic demand."
